

SALSAL VM

Senior Flutter Developer | Mobile Engineer

• +91 7558959094 • salsalvm1997@gmail.com • [LinkedIn](#) • [GitHub](#) • [Portfolio](#)

PROFESSIONAL SUMMARY

Software Engineer with 4+ years of experience in designing, developing, and maintaining high-performance mobile applications using Flutter, Dart, and Kotlin. Proficient in MVVM architecture, BLoC/Cubit state management, RESTful APIs, WebSockets, Firebase, CI/CD pipelines, and payment gateway integrations. Experienced in building scalable, secure, and production-ready applications with a focus on clean architecture, code quality, and performance optimization. Proven ability to deliver end-to-end features, collaborate with cross-functional teams, and drive impactful user experiences across diverse business domains.

TECHNICAL SKILLS

Flutter & Dart : BLoC/Cubit, GetX, GetIt (Dependency Injection), Hive, Dio, Deep Linking, Platform Channels, Unit Testing

Kotlin : Coroutines, Flow, Jetpack Compose, Android SDK

Firebase : Authentication, Firestore, FCM, Analytics, Crashlytics, App Distribution, Remote Config, Push Notifications

Architecture & Practices : MVVM, Clean Architecture, SOLID, OOP

Backend & APIs : Node.js, Python, FastAPI, RESTful APIs, Socket.IO, JSON, Swagger

Deployment/CI-CD : Play Store, App Store, GitHub Actions, App Flavors (dev/staging/prod)

Tools & Other : Git, GitHub, Postman, Agile / Scrum, AdMob, VS Code, Android Studio, Xcode, Javascript, Repository Pattern

PROFESSIONAL EXPERIENCE

Flutter Developer

Oct 2022 – Mar 2026

Real11 Fantasy Sports Lp • skill-based entertainment platform

Noida, Uttar pradesh

- Developed and maintained the Real11 fantasy sports app, scaled to 10M+ downloads with 100K+ daily active users.
- Reduced crash rate by 28% through performance optimization and memory management.
- Integrated Socket.IO for real-time match data, live notifications, and chat.
- Increased **30-day user retention by 40%** and reduced crash rates by establishing an observability pipeline with Firebase Analytics & Crashlytics — instrumented funnel tracking, defined KPIs, and fed crash telemetry directly into sprint priorities.
- Integrated **Stripe and Razorpay** payment gateways along with **iOS & Android in-app purchases**, implementing server-side validation, retry-safe failure handling, and secure transaction processing for a seamless checkout experience.
- Mentored 1 junior developer through code reviews, architecture guidance, and best practices, improving code quality and delivery efficiency.

Software Trainee

Jan 2020 – May 2020

FoxFennecs Pvt Ltd • mid market businesses and focused strategic consult

Calicut, Kerala

- Developed an Office Management System with 3+ integrated modules for task scheduling, staff communication, and reporting.
- Streamlined daily office operations, reducing manual administrative effort by 30%+ through workflow automation.
- Improved project visibility and team coordination for 50+ employees with centralized task tracking and reporting.

PROJECTS

My Gym Orbit

Flutter, Firebase

- Developed a cross-platform fitness management application using Flutter, Dart, and Firebase, enabling users to manage memberships, track workouts, and monitor fitness activities in real time.
- Architected the application using MVVM architecture and BLoC state management, improving scalability, maintainability, and separation of concerns across multiple modules.
- Implemented automated CI/CD pipelines using GitHub Actions and Firebase App Distribution, reducing deployment time by 40% and streamlining release management.
- Implemented comprehensive error handling, API abstraction, and state management patterns, improving application reliability and simplifying long-term maintenance.

Anan Jewels

Flutter, Node.js, Firebase

- Developed a B2B jewelry e-commerce platform using Flutter, Node.js, and REST APIs, enabling retailers to seamlessly browse, manage, and purchase diamond jewelry inventory.
- Architected a scalable product catalog system with advanced search, filtering, and category-based navigation, significantly improving product discoverability for wholesale buyers.
- Automated build and release workflows using GitHub Actions and Firebase App Distribution, reducing deployment time by 40% and accelerating release cycles.
- Integrated secure authentication, order management, and backend API services, streamlining wholesale purchasing workflows and enhancing operational efficiency.

EDUCATION

Master of Computer Applications (MCA)

APJ Abdul Kalam Technological University | 2018 - 2020

Relevant Coursework:

- Data Structures
- DBMS
- Operating Systems

Bachelor of Computer Applications (BCA)

University of Calicut | 2015 - 2018

Flutter Development Program

Brototype, Kochi | Jan 2022 – Oct 2022
